Demolition is Forever

Preservation Creates Lasting Legacies

Over the past 20 years, we have witnessed and celebrated the preservation of many significant Utah landmarks: The State Capitol, Salt Lake City & County Building, Utah Governor's Mansion, the Union Pacific Depot in Salt Lake City and Union Station in Ogden. But historic preservation is not just about the monumental buildings. It's also about your historic neighborhood schools, community libraries, churches, local businesses, restaurants, and homes.

YOU provide the support that enables Utah Heritage Foundation to save buildings and educate the public, including Utah's schoolchildren, on the value of maintaining the continuity of past, present and future in our built environment. With one of the nation's fastest growing populations, the impulse can be to demolish or abandon old structures. Utah Heritage Foundation promotes thoughtful rehabilitation and re-use. Historic preservation conserves materials and energy, creates affordable residential and commercial space, and generates jobs in retrofitting existing buildings. It provides a more livable environment for our future generations and attracts tourists.

Make your tax-deductible gift today online at www.utahheritagefoundation.org, or call our office at 801-533-0858 ext. 107 to make a contribution by credit card. Thank you for your support in saving the treasures of the past for a rich and sustainable future!

WHAT WE'RE WORKING ON

UHF LAUNCHES SALT LAKE MODERN

The first meeting of *Salt Lake Modern* was held yesterday at the Home of Lewis Francis and Dana Costello – a 1956 home designed by Utah Architect, Stephen Macdonald.

Salt Lake Modern is a group dedicated to preserving, protecting, and promoting the Salt Lake region's mid-century modern homes and commercial buildings. As a part of Utah Heritage Foundation, *SL Mod* functions as a committee to promote awareness of such works, document the architects who created them, and showcase the functional design philosophy behind them.

Influenced by these early masters, Utah's modernist movement included a wide array of talent in residential, commercial, and public design. Utah features excellent examples of all Modern architectural styles – from the International style First Security Bank Building (1955; 400 S and Main St., SLC) to the Googie Iceberg Drive-In (1960; 3900 South and 900 East, SLC), and the Prairie style Stromquist House (1959; 1289 E. Canyon Creek Road, Bountiful), to the New Formalist former SLC Public Library Building (1964; 209 East 500 South).
